In addition to members of the Editorial Board, the following scientific referees contributed generously of their knowledge, expertise, and time to review and to evaluate the suitability of typescripts submitted for publication to THE AMERICAN JOURNAL OF OPHTHALMOLOGY between November 1, 1984, and October 31, 1985. The Editorial Board is ever mindful of their generous contribution to the integrity and accuracy of THE JOURNAL.

SUBJECT INDEX

Note: Abstract Index follows Author Index

A

Acanthamoeba sp.

Acanthamoeba keratitis associated with soft contact lenses, 396

Acquired immune deficiency syndrome

Human T-cell leukemia/lymphotropic virus type III in the conjunctival epithelium of a patient with AIDS, 507

Impact of the AIDS epidemic on corneal transplantation (editorial), 610

Perivasculitis of the retinal vessels as an important sign in children with AIDS-related complex (letter), 614

Prospective study of the ophthalmologic findings in the acquired immune deficiency syndrome in Africa, 230

Adenoma

Differentiation of adenoma of the iris pigment epithelium from iris cyst and melanoma, 678

Adenomatosis

Nodular adenomatosis of iris pigment epithelium, 87

Adenylate cyclase

Regulation of aqueous flow by the adenylate cyclase receptor complex in the ciliary epithelium, 194

Afferent pupillary defect

Relative afferent pupillary defect in congenital occipital hemianopia (letter), 345

Return of vision following orbital decompression after 36 hours of postoperative blindness, 602

Agnosia

Visual disturbances with focal progressive dementing disease, 68

AIDS-related complex

Impact of the AIDS epidemic on corneal transplantation (editorial), 610

Perivasculitis of the retinal vessels as an important sign in children with AIDS-related complex (letter), 614

Prospective study of the ophthalmologic findings in the acquired immune deficiency syndrome in Africa, 230

Alexia

Visual disturbances with focal progressive dementing disease, 68

Alzheimer's disease

Visual disturbances with focal progressive dementing disease, 68

Amblyopia

Idiopathic amblyopia, 214

Amikacin

Comparative toxicity of intravitreal aminoglyco-

side antibiotics, 264

Influence of aphakia and vitrectomy on experimental retinal toxicity of aminoglycoside antibiotics, 840

Aminocaproic acid

Role of aminocaproic acid in lacrimal surgery in dyskeratosis congenita, 728

Aminoglycoside

Influence of aphakia and vitrectomy on experimental retinal toxicity of aminoglycoside antibiotics, 840

Amphotericin B

Mycotic endophthalmitis caused by *Penicillium* sp. after parenteral drug abuse, 408

Ocular toxicity of intravitreally injected liposomal amphotericin B in rhesus monkeys, 259

Ampicillin

Intraocular ampicillin in the treatment of endophthalmitis (letter), 487

Anemia

Anemia and diabetic retinopathy, 434

Aplastic anemia simulating central retinal vein occlusion (letter), 478

Anesthesia

Fire risks with ophthalmic ointments (letter), 477

Angle-closure glaucoma

Modified technique for serial use of argon and neodymium-YAG lasers in laser iridotomy (letter), 485

Secondary angle-closure glaucoma after central retinal vein occlusion, 581

Annular macular dystrophy

Evolution of benign concentric annular macular dystrophy, 73

Anterior chamber

Argon laser iridocorneal adhesiolysis (letter), 330

Dental mirror for goniosynechialysis during penetrating keratoplasty (letter), 331

Effects of intraocular irrigating solution on the corneal endothelium after in vivo anterior chamber irrigation (correspondence), 622

Inversion of anterior chamber pigment as a possible prognostic sign in narrow angles (letter), 480

Maintenance of anterior chamber integrity and surgical view during air-fluid exchange in eyes with intraocular lenses (letter), 856

Anterior segment

K-Sol corneal preservation, 299

Antibiotic drugs

Comparative toxicity of intravitreal aminoglycoside antibiotics, 264

Human vitreous levels of selected antistaphylococ-

- cal antibiotics, 570
- Influence of aphakia and vitrectomy on experimental retinal toxicity of aminoglycoside antibiotics, 840
- Update on antibiotics in ocular infections, 134
- Antigen**
- Retinal vasculitis associated with autoantibodies to Sjögren's syndrome A antigen, 814
- Aphakia**
- Influence of aphakia and vitrectomy on experimental retinal toxicity of aminoglycoside antibiotics, 840
- Aqueous humor**
- Regulation of aqueous flow by the adenylate cyclase receptor complex in the ciliary epithelium, 194
- Aspergillus sp.**
- Calcofluor and ink-potassium hydroxide preparations for identifying fungi, 719
- Topical ketoconazole for fungal keratitis, 293
- Treatment of *Aspergillus fumigatus* keratitis in rabbits with oral and topical ketoconazole (correspondence), 356

B

- Bacillus sp.**
- Bacillus cereus* panophthalmitis appearing as acute glaucoma in a drug addict (letter), 334
- Behçet's disease**
- Application of mizoribine after keratoplasty and in the treatment of uveitis, 161
- Beta-blocker**
- Decreased intraocular pressure in the hypertensive human eye with betaxolol, a β_1 -adrenergic antagonist, 777
- Effects of topical betaxolol, timolol, and placebo on pulmonary function in asthmatic bronchitis (correspondence), 492
- Betaxolol**
- Decreased intraocular pressure in the hypertensive human eye with betaxolol, a β_1 -adrenergic antagonist, 777
- Effects of topical betaxolol, timolol, and placebo on pulmonary function in asthmatic bronchitis (correspondence), 492
- Binocularity**
- Idiopathic amblyopia, 214
- Blepharoplasty**
- New corneal protector for oculoplastic surgery (letter), 484
- Blepharoptosis**
- Gaze palsy associated with viral syndrome, 468
- Ocular findings in Kniest dysplasia, 155
- Ocular findings in the facioauriculovertebral sequence (Goldenhar-Gorlin syndrome), 555
- Sequelae of botulinum toxin injection, 305
- Blepharospasm**
- Sequelae of botulinum toxin injection, 305
- Blindness**
- Return of vision following orbital decompression after 36 hours of postoperative blindness, 602

Blowout fracture

New corneal protector for oculoplastic surgery (letter), 484

Orbital blowout fracture with ipsilateral fourth nerve palsy (letter), 343

E

Ectropion

Infrared radiation and cataract. III. Differences between the two eyes of glass workers, 362

Edema

Grid photocoagulation for diffuse macular edema, 754

Endophthalmitis

Fungal endophthalmitis in narcotic abusers, 633

Histopathologic study of changes occurring in eyes with intraocular lens implantation. Autopsy eyes, enucleated eyes and corneal buttons, 629

Pseudophaco-anaphylactic endophthalmitis—?P.M.M.A. related, 629

Treatment of endophthalmitis with and without pars plana vitrectomy, 753

Endothelium

Polysulfone corneal inlays. Adverse reactions, 634

Esotropia

Large bimodal rectus recessions in congenital esotropia, 751

Esterase D

Acute non-lymphocytic leukemia following multimodality therapy for retinoblastoma, 363

Eyelid

Alternative surgical method for repair of the fractured orbital floor, 870

Herpes simplex virus latency in the rabbit trigeminal ganglia. Ganglionic superinfection, 366
